Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-5 are drawn to a composition comprising an egg product.

Group II, claim(s) 1 and 6 are drawn to an agent for inhibiting digestive enzymes.

Group III, claim(s) 1 and 7 are drawn to an antiobesity agent.

Group IV, claim(s) 1 and 8 are drawn to a food.

2. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Each group has a different and distinct ability, unrelated to the other groups. The antiobesity agent of group III, can be used with other methods and can be used separately from the other products. For instance, the antiobesity agent does not need to be used with an agent for inhibiting a digestive enzyme. Therefore, the antiobesity's special technical feature is comprised within the product and its ability to be an antiobesity agent; therefore the groups lack the same or corresponding technical feature.

Groups I and III, is drawn to an unrelated inventions because it use, function and effect are patentably distinct in comparison to the other groups. Group I has a different special technical feature when compared to the claim of Group III; because the recited product is the special technical feature. Theses special technical features are comprised within their differences and their ability to have different final results. Accordingly, the groups lack a corresponding technical feature. Finally, groups I and II are unrelated and do not share a special technical feature because each product has a separate and distinct purpose with separate and distinct final outcomes and different particles characterized by its ability to inhibit a digestive enzyme. Therefore, there is no corresponding special technical feature between the groups I, II, III and IV.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
